**A Royal Getaway**

No wonder regality reigns it's very air. Rajputana literally means ' The lands of sons of kings '. Rajasthan possesses a rich heritage of immaculately crafted & painted, imposing edifices of castles and palaces. It nestles a culture of warm hospitality, dauntless valour and a hypnotic charm.

In the same spirit Bijayniwas Palace opens its gates to welcome the world into it's fourwalls, which till now was an exclusive royal prerogative.

Bijayniwas is a palace that trespasses into the history, and breathes in a time that now lives only in fables & legends. Bijayniwas was built by Rao Bijay Singhji , the erstwhile ruler of Masuda. Experience royalty alive & vibrant, hear the echo of an era of splendour, plush opulence and exhilarating adventure. Hushed with floral scents and punctuated with sounds of nature the retreat is an ideal royal getaway where time moves with a languid saunter and the mind eases over with the feel of fresh wind. Take a walk in the restful, soulful serene over 50-acre orchard. Pamper yourself with the royal luxuries at the adobe of a king , at any of the artistically designed suites, which carry the royal ambience by their original vintage furniture and exotic sceneraio of traditional Rajasthani wall murals & frescos. Simultaneously providing all modern amenities. You can relish the truly Indian or even continental cuisines in delicious flavours and delight in their aromas, served to you with royal courtesy. If you please you can take a cool dip at the swimming pool, bask around in privacy or have a game of tennis. Bijayniwas is also an ideal stopover for visiting Sonkhlia, the great Indian Bustard reserve, where sighting of a rare bird is almost certain.

If the mornings are a bird watcher's joy, the evenings are for those who hold a special penchant for freedom of gypsy songs and haunting melodies of ballads & folkmusic. The more adventurous can take an intimate experience of the terrain over a camel's back, horse ride or on a jeep safari.
